- Corporate Investigations (Fraud and Embezzlements)
- Technical Surveillance/Countermeasures and Electronic Debugging

2011 Tōhoku earthquake and tsunami - 東北地方太平洋沖地震 Tōhoku Chihō Taiheiyō-oki Jishin,

literally "Northeast region Pacific Ocean offshore earthquake", was a 9.0-magnitude undersea megathrust earthquake off the coast of Japan that occurred at 14:46 JST (05:46 UTC) on Friday, 11 March, 2011. The epicenter was approximately 72 kilometers (45 mi) east of the Oshika Peninsula of Tōhoku, with the hypocenter at an underwater depth of approximately 32 km (19.9 mi).

The earthquake triggered extremely destructive tsunami waves of up to 23.6 m (77 ft) that struck Japan minutes after the quake, in some cases traveling up to 10 km (6 mi) inland, with smaller waves reaching many other countries after several hours. Tsunami warnings were issued and evacuations ordered along Japan's Pacific coast and at least 20 other countries, including the entire Pacific coast of North America and South America.

The Japanese National Police Agency has officially confirmed 11,004 deaths, 2,778 injured, and 17,339 people missing across eighteen prefectures, as well as over 125,000 buildings damaged or destroyed. The earthquake and tsunami caused extensive and severe structural damage in Japan, including heavy damage to roads and railways as well as fires in many areas, and a dam collapse. Around 4.4 million households in northeastern Japan were left without electricity and 1.5 million without water. Many electrical generators were taken down, and at least three nuclear reactors suffered explosions due to hydrogen gas that had built up within their outer containment buildings. On 18 March, Yukiya Amano—the head of the International Atomic Energy Agency—described the crisis as "extremely serious." Residents within a 20 km (12 mi) radius of the Fukushima I Nuclear Power Plant and a 10 km (6 mi) radius of the Fukushima II Nuclear Power Plant were evacuated.

Estimates of the Tōhoku earthquake's magnitude make it the most powerful known earthquake to have hit Japan, and one of the five most powerful earthquakes in the world overall since modern record-keeping began in 1900. Japanese Prime Minister Naoto Kan said, "In the 65 years after the end of World War II, this is the toughest and the most difficult crisis for Japan." The earthquake moved Honshu 2.4 m (7.9 ft) east and shifted the Earth on its axis by almost 10 cm (3.9 in). Early estimates placed insured losses from the earthquake alone at US\$14.5 to \$34.6 billion. The Bank of Japan offered ¥15 trillion (US\$183 billion) to the banking system on 14 March in an effort to normalize market conditions. On 21 March, the World Bank estimated damage between US\$122 billion and \$235 billion. Japan's government said the cost of the earthquake and tsunami that devastated the northeast could reach \$309 billion, making it the world's most expensive natural disaster on record.

DOGS has offered a donation from every hour a guard works for the month of March & April 2011, Lets support the families of our partners in society.

Emergencies could happen anywhere in the world as individuals we need to be prepared for a disaster. On the next page you will find a 72-hour Emergency Kit. Please prepare a kit for your loved ones.

72-hour Emergency Kit

No one knows for sure when disaster will strike, but we can all be prepared. Create your own 72-hour emergency kit, and you will have the necessary items to help you and your family until emergency responders can reach you. Don't assume that power and water will be restored; always plan for the worse case (including options beyond the 72-hour window). Here are items you may want to include in your kit.

Food and water (3-day supply of non-perishables per person required)

- protein/granola bars
- trail mix/dried fruit
- crackers and cereals
- canned meat, fish and beans
- canned juice
- water (4 L per person, include small bottles to carry with you)

Bedding and clothing

•change of clothing (short- and long-sleeve shirts, pants, socks, undergarments)

•raincoat/emergency poncho/jacket

•spare shoes

•sleeping bags/blankets/
emergency heat blankets per person

- plastic and cloth sheets

Light and fuel

- hand-crank flashlight or battery-operated flashlights/lamps
- extra batteries
- flares
- candles
- lighter
- waterproof matches

Equipment

•manual can opener

•dishes and utensils

•shovel

•radio (with spare batteries/hand operated crank)

- pen and paper
- axe/pocket knife
- rope
- duct tape
- whistle
- cell phone charger (although don't rely on any infrastructure working)
- basic tools

- small stove with fuel (follow manufacturer's directions for operation and storage)

Personal supplies and medication

- first-aid kit
- toiletries (toilet paper, feminine hygiene, toothbrush)
- cleaning supplies (hand sanitizer, dish soap, etc.)
- medication (acetaminophen, ibuprofen, children's medication, etc., and 3-day supply of prescription medication)
- pet food and supplies
- garbage bags
- toys/reading material

Copies of personal documents, money (in waterproof container)

•legal documents (birth and marriage certificates, wills, passports, contracts)

•insurance policies

•cash in small bills

- credit card/s
- prepaid phone cards (although don't rely on any infrastructure working)
- copy of your emergency plan and contact information

Notes

- Update your kit every six months (put a note in your calendar/planner) to make sure that food, water, and medication are not expired, clothing fits, personal documents and credit cards are up to date, and batteries are charged.
- Small toys/games are important; they can provide some comfort and entertainment during a stressful time.
- Some items and/or flavours might leak, melt, or break open. Dividing groups of items into individual Ziploc bags might help prevent this.

Why Use a Mortgage Professional?

There are generally two ways to get a mortgage in Canada: From a bank, or from a **licensed mortgage professional!**

While a bank only offers the products from their particular institution, licensed mortgage professionals send millions of dollars in mortgage business each year to Canada's largest banks, credit unions, and trust companies ... offering their clients more choice, and access to hundreds of mortgage products!

As a result, **clients benefit from the trust, confidence, and security of knowing they are getting the best mortgage for their needs.**

As **Mortgage Professionals** we work for you, and not the banks; therefore, we work in your best interest. From the first consultation to the signing of your mortgage, our **services are free.** A fee is charged only for the most challenging credit solutions, and it's especially under those circumstances that we can do for you what your bank cannot.

Whether you're purchasing a home for the first time, taking out equity from your home for investment or pleasure, or your current mortgage is simply up for renewal, it's important that you are making an educated buying decision with professional unbiased advice.

Why Use a Leasing Professional?

At Dominion Lending Centres Brayco Financial, **As leasing professionals** we can help you in discovering multiple ways to structure lease financing new or used vehicles, new equipment, a sale-lease back to extract capital from existing assets, or solve other equipment acquisition opportunities.

.....The Alim and Kalim Advantage.....

With a combined experience of 23 + years in the financial world working for major banks; we draw from our expertise to give you a solution that works for your needs.....A WIN WIN solution for you!

As **Mortgage and Leasing Professionals** we offer and can use commercial and residential and properly credit-line products alone or in combination with lease-financing to help you achieve the best solution for equipment acquisition or mortgages.
